NOWA

Context

Sometimes, the NOWA 360 system gets disconnected from the Wi-Fi network for no apparent reason.

If you didn't change any of the following: "Internet service provider, router, Wi-Fi name and password" then follow this procedure to force your NOWA 360 system to reconnect to the Wi-Fi.

Procedure

1. Press the following buttons on the control unit to activate the Ethernet mode

   | MENU | 9 | 9 | 9 | 9 | 9 | ENTER | **7** |

2. Wait for the control panel to annunciate "Ethernet is on"

3. Press on the button **7** again to activate the Wi-Fi mode

4. Wait for the control panel to annunciate "Wi-Fi is on"

5. Press on MENU twice

6. The system should soon reconnect itself to the Wi-Fi network
