Subject: **NOWA 360 | Z- Wave functionality**

Good morning,

We would like to inform you that the Z- Wave radio component which fitted the NOWA 360 control panel allowing, among other things, wireless control of devices such as smart door locks, thermostats, circuit breakers and other compatible devices, is officially out of stock . stock at a global level. No date has been announced for the return to the market. All panels with a “Date code” higher than 21100 no longer have the Z- Wave chip . **The NOWA 360 control panel is still available for purchase WITHOUT this part.**

This situation is unfortunately beyond our control, rest assured that our purchasing team is working tirelessly to find solutions to minimize the impact on our water damage prevention solutions .

We thank you in advance for your usual understanding.

Anthony Boisvert
Technical Director Nowa inc.
